德州亚太集团是以解决暖通空调、洁净技术系统方案并投资高等教育、房地产等领域的多元化大型综合企业集团。亚太集团创建于1994年，目前已发展成为集研发、制造、安装为一体，产品涵盖了由主机到末端的中央空调、洁净空调、复合材料、通风设备、环保设备等全产业链。服务对象涉及商用、工业、军工、核电、地铁、风电等多个领域。

### 品牌——企业的象征

亚太品牌久负盛名。2004年首批获国家制冷设备生产许可证、继获得山东省名牌、山东省著名商标之后，2006年荣获中国驰名商标称号。2008年制冷机组入选节能产品政府采购清单；亚太集团被列入国家高新技术企业。2009年荣获建筑机电安装工程专业承包壹级资质。2012年荣获中国专利山东明星企业。2015年取得了中国制冷空调设备维修安装资质。2018年荣获电子与智能化建筑专业承包贰级资质。2021年取得全国商品售后服务达标认证证书及消防设施工程专业承包壹级资质。2023年取得行业内首批六星级“制冷空调设备及系统服务认证”、“建筑装饰工程设计专项乙级资质”。2024年取得武器装备质量管理体系认证证书、公共环境消毒杀菌服务企业一级资质证书。2025年取得单元机和屋顶空调机CE认证证书。施工项目多次获得了建设工程“鲁班奖”、“长城杯金奖工程”及工程质量“泰山杯”等奖项。

### 实力——强大的后盾

二千名员工铸就的亚太团队，百余台高精尖数控专用设备，十余条装配流水线，国家级制冷设备检测中心，严格运行的ISO9001、ISO14001、ISO45001等重要管理体系。亚太人一丝不苟的敬业精神，“和而不同”的和谐氛围，成为打造亚太精品、保持企业健康向上的强大后盾。

### 创新——发展的保证

管理创新、技术创新、产品创新。亚太始终紧紧追赶时代的步伐，相继推出屋顶式空气调节机组、离心式水冷冷水机组、满液式变频机组、降膜式水源热泵机组、智能型高精度恒温恒湿空调机组、智能全直流变频低环热泵（冷水）机组、微动力智能化能量回收机组等一系列节能、环保型高科技产品，综合节能达到了30%，获得多项国家专利，享有大量自主知识产权。

### 服务——永恒的追求

以集团为中心，以北京、天津、西安、呼和浩特、郑州、太原、沈阳、青岛、合肥、成都、兰州、长春、徐州、哈尔滨、银川、乌鲁木齐、雄安新区、武汉等大、中城市为基点，形成了辐射全国、联结海外的服务网络，通过绿色服务通道架起了与用户之间的桥梁。

### 成功——更高的起点

亚太中央空调工程遍布全国各大中城市并且出口几十个国家和地区。如中央电视台新址、北京大兴国际机场、酒泉卫星发射中心、凤凰国际传媒中心、国家市场监督管理总局、北京小汤山医院、武汉火神山医院、武汉雷神山医院、中国人民解放军总医院、北京二十余个奥运场馆以及乌兹别克斯坦安格连橡胶厂、白俄罗斯维捷布斯克水电站等海外项目。

### 未来——美好的明天

亚太暖通空调健康稳步发展；山东华宇工学院蒸蒸日上；合资企业德州艾荷过滤设备有限公司生机勃勃；山东创源空调设备有限公司迅速扩展；山东易安亚太生物科技有限公司正茁壮成长。亚太人面前展开了一幅壮丽的蓝图：“国内一流”在向我们招手，走向世界已指日可待。

Dezhou Yatai Group is a multi-field, large and comprehensive enterprise which focuses on manufacturing central air conditioners and undertaking air cleaning projects. It also invests in high education and real estates. Yatai Group was established in 1994, and has developed into a large-sized air conditioner manufacturer that is capable of designing, making and installing whole sets of equipment including chillers, terminal air conditioning equipment and undertaking integral air cleaning projects. Relative industries range from compound materials to ventilation products. Service objects expand from civilian and industry to military, nuclear power, metro industries and wind-power etc.

Brand -- Enterprise Symbol

Yatai trademark has long enjoyed a good reputation. In 2004, Yatai obtained the national production permit of refrigeration equipment in first group. After getting titles of Shandong Province Famous Brand and Shandong Province Famous Trademark, it won the title of Famous Trademark of China in 2006. In 2008, chillers were listed into the government purchase charts as energy saving products, and Yatai was named as one of national high-tech enterprises. In 2009, Yatai had the honor to win the First-class Qualification Certificate of Professional Contract of Electromechanical Equipment Installation Work. In 2012, Yatai won the title of "China's Patent Shandong Superstar Enterprise". It got the Maintenance and Installation Credential of Refrigeration Air Conditioning Equipment of China in 2015 and Second-class Qualification Certificate of Professional Contract of Electronic and Intelligent Building. In 2021, Dezhou Yatai Group was awarded the national commodity after-sales service certificate and the First-class Qualification Certificate of Professional Contract of Fire Equipment Project. In 2023, Yatai obtained the first batch six-star refrigeration and air conditioning equipment and system service certification and the Second-class Qualification Certificate as Designer of Building Decoration Engineering. In 2024, it acquired the Certification of the Quality Management System for Weapons and Equipment and the First-class Company Qualification for Public Environment Disinfection and Sterilization Services. In 2025, Yatai got the CE certificates for unitary unit and rooftop unit. It for many times obtained "Luban Prize" and

"Great Wall Cup Gold Medal project" for its construction projects and "Taishan Strength---Strong Mainstay

Yatai has 3,000 employees, some hundreds of advanced CNC equipment, some dozens of production lines, and the national testing center of refrigeration equipment. Strict management systems including ISO9001, ISO14001 and

ISO45001, the meticulous spirit of Yataian and the harmonious atmosphere of "Harmonization and Difference" are strong mainstay of manufacturing YATAI premium products and keeping YATAI growing fairly well.

Innovation ---- Guarantee for Development

With innovation in management, technology and products, Yatai keeps abreast of the times, and has developed the rooftop air conditioning unit, centrifugal water cooled cold water chillers, flooded type frequency conversion chillers, falling-film water source heat pumps, intelligent high precision constant temperature and humidity air conditioners, intelligent all DC frequency conversion low ambient temperature heat pump (cold water) unit, micro power intelligent energy recovery unit and other various energy-saving, environment friendly high-tech products. Comprehensive energy conservation is up to 30%. Yatai got many national patents and owned lots of independent intellectual property rights.

Service -- Eternal Pursuit

Based on our group, we have set up offices in many large and medium sized cities like Beijing, Tianjin, Xi'an, Hohhot, Zhengzhou, Taiyuan, Shenyang, Qingdao, Hefei, Chengdu, Lanzhou, Changchun, Xuzhou, Harbin, Yinchuan, Urumchi, Xiong'an New Area, and Wuhan. Service network radiates throughout our country and goes to abroad, and a close relationship between customers and Yatai has been established by the green service channel.

Success -- Higher Starting Point

Yatai central air conditioning projects have spotted all over China and been exported to dozens of countries and regions, like the new site of CCTV, Beijing Daxing International Airport, Jiuquan Satellite Launch Center, Phoenix International Media Center, State Administration for Market Regulation, Beijing Xiaotangshan Hospital, Wuhan Huoshenshan Hospital, Wuhan Leishenshan Hospital, General Hospital of the People's Liberation Army, over 20 of Beijing Olympic Stadiums, Angren Rubber Factory in Uzbekistan and Vytebsk Hydropower Station in Belarus.

Future -- Promising Tomorrow

We can see the healthy and steady growth of Yatai central air conditioners, flourishing of Shandong Huayu University of Technology, blooming of the joint venture---Afpro Eaf Filtering Equipment Co., Ltd., fast expansion of Shandong Chuangyuan Air Conditioning Equipment Co., Ltd. and Shandong Yi'an Yatai Biotechnology Co., Ltd. develops strongly and fastly. A brilliant blueprint is laid out in front of Yataian: "No. 1 group in China" is giving us a wave. Marching towards the world is just round the corner.

### 直膨变频双冷源深度除湿空调机组

Direct expansion frequency conversion double cold sources in-depth de-humidity air conditioning unit

直膨变频双冷源深度除湿空调机组是德州亚太集团有限公司自主立项研发的、具有独立知识产权的新型直膨空调机组。该机组具有制冷、加热、除湿、净化、送风等功能段。制冷、加热均可按双冷热源配置。与通用型直膨机相比具有低碳节能的特点，同时冷水预除湿及直接蒸发制冷除湿的双级除湿使除湿效果显著增加，湿度可控制到 30%~70%。该机组可广泛应用于医药、生物、电子、医院、食品等具有对温湿度及洁净环境要求的场所。

Direct expansion frequency conversion double cold sources in-depth de-humidity air conditioning unit is independently developed by Dezhou Yatai Group with independent intellectual property rights. The unit has functions such as refrigeration, heating, dehumidification, purification and air supply. Cooling and heating can be equipped with double cold and heat sources. Compared with the general direct expansion unit, it has the characteristics of low carbon and energy conservation, and the two-stage dehumidification of cold water pre-dehumidification and direct evaporation refrigeration dehumidification significantly increases the dehumidification effect, and the humidity can be controlled to 30%~70%. The unit is widely used in medicine, biology, electronics, hospitals, food and other places with requirements for temperature, humidity and clean environment.

### 离心式水冷冷水机组

Centrifugal type water-cooled cold water unit

压缩机采用双级压缩：制冷效率高，COP 高达 6.3，IPLV 高达 8.2，运行范围宽，不易喘振，单机制冷量大（500 ~ 3000RT）。冷媒采用 R134a，属于环保冷媒，对大气臭氧层无破坏作用。采用降膜式蒸发器，冷媒充填量较低，只需满液式蒸发器 70% - 80%。机组本身具有多项保护功能：包括压缩机过载、过热、堵转保护；系统高压、低压、蒸发器出水温度过低保护、蒸发器防冻保护、冷凝器入水温度过低保护、水流量异常保护等。通过 Webcon 所组成的中央监控系统，我们可以通过网络直接由网页上查询机组的运行状况并进行控制。

The compressor adopts two-stage compression: it has high refrigeration efficiency. COP up to 6.3, IPLV up to 8.2, wide operating range, not easy to surge. High cooling capacity of a single unit (500 ~ 3000RT). Uses environment friendly refrigerant- R134a, which has no damage to ozone layer. Uses falling film type evaporator which needs low amount of refrigerant, only 70% - 80% that of flooded type evaporator. The unit itself has a number of protection functions: including compressor overload, overheating, plugging protection; system high pressure, low pressure, ultra-low evaporator water outlet temperature protection, evaporator anti-freezing protection, ultra-low condenser water inlet temperature protection, abnormal water flow protection, etc. Through the central monitoring system composed by Webcon, we can directly check the running status of the unit and control it through the network.

#### 全直流变频式低环温空气源热泵（冷水）机组

All DC variable frequency low ambient temperature air source heat pump ( cold water ) unit

机组采用直流变频压缩机以及直流变频散热风机，根据用户实际需求自动调节运行频率，达到节能的目的，较常规热泵机组节能 10% 以上；创新结构设计，机组占地面积更小，翅片换热器散热面积更大，融霜更快；机组采用 R410A 环保冷媒；模块化组合，可根据不同建筑物所需冷、热量自行组合，安装方便，应用灵活；可以更精准的匹配实际冷热负荷，部分负荷效率更高，较常规定速风冷热泵机组，其综合性能系数 IPLV 及全年性能系数 APF 均有大幅度提升；通过 EVI 喷气增焓技术使机组在低环温工况下制热性能更强劲，同时也拓宽了机组制热的使用范围，可在 -35℃ 低环温工况下正常运行。

The unit adopts DC frequency conversion compressor and DC frequency conversion cooling fan. It can self-regulate its operation frequency according to user's need to save energy. Compared with ordinary heat pumps, it can save above 10% energy. This unit has innovative structure, bigger heat radiation area of fin heat exchanger, faster defrosting speed and occupies less space. Adopt R410A environment friendly refrigerant. Modular combination; The unit, which is easily installed and flexibly applied, can self-combine its modules according to various cooling and heating capacity needs of different buildings. It can more accurately match the actual cooling and heating load and partial load efficiency is higher. Compared with the conventional fixed-speed air-cooled heat pump unit, its integrated part load value and annual performance factor have been greatly improved. Through enhanced vapor injection technology, the heating performance of the unit is stronger in the low ambient temperature condition, and it also widens the heating application range of the unit. The unit can operate normally in the low ambient temperature condition of -35℃.

### YT6-51 型系列离心风机

YT6-51 TYPE CENTRIFUGAL FAN

YT6-51 型系列离心风机适用于火力发电厂 2t/h--670t/h 蒸汽锅炉的送引风系统，从而满足流化床炉高压头性能参数的需求，适用于脱硫脱硝系统、冶金等行业的环保除尘领域，以及一般的通风系统。

此系列送风机输送的介质为空气，引风机输送的介质为烟气或含杂质颗粒之气体。含杂质浓度小于  $200\text{mg}/\text{m}^3$  时可用四年以上，如含杂质大也可使用，但使用寿命相对缩短。送引风机最高使用的温度不超过  $250^\circ\text{C}$ 。

YT6-51 series centrifugal fan is suitable for air supply and induction systems of 2t/h-670t/h steam boilers in thermal power plants. Thus the performance parameters of high pressure head of fluidized bed furnace can be met. It is suitable for desulfurization and denitrification systems, metallurgy and other industries in the field of environmental dust removal, as well as general ventilation system.

The medium transported by this series of blowers is air, and the medium transported by the induced draft fan is flue gas or gas containing impurity particles. When the impurity concentration is less than  $200\text{mg}/\text{m}^3$ , it can be used for more than four years. If the air contains large impurities, its service life is relatively shortened. The maximum operating temperature of the air supply and induction fans cannot exceed  $250^\circ\text{C}$ .

德州艾荷过滤设备有限公司  
DEZHOU AFPRO EAF FILTERING EQUIPMENT CO., LTD.

德州艾荷过滤设备有限公司由德州亚太集团和荷兰阿波罗集团合资成立于 2006 年，位于德州市天衢新区，是集研发、生产、销售于一体的专业空气过滤设备制造商。

总建筑面积 40000m<sup>2</sup>，能够生产各类型的空气过滤器、空气净化设备、生物安全防护用品，主要应用于电子、医疗、生物安全、核电等领域。

公司秉承现代化的经营理念，分别通过了 ISO9001 质量管理体系、ISO14001 环境管理体系、ISO 45001 职业健康体系认证及核电系统体系认证。

在行业领域为“国家洁净室与相关受控环境标准化委员会”委员单位、中国洁净行业协会会员单位、国家标准化委员会空气过滤器标准的起草单位，参与和起草了多个国家标准。

Dezhou Afpro Eaf filtering equipment Co., Ltd. was co-established in 2006 by Dezhou Yatai Group and Apollo Group of the Netherlands. Situated in Tianqu New Area, It is a specialized air filtering equipment manufacturer majoring in research, development, production and sales.

At present it has over 260 employees and covers an area of 4 hectares. It can produce various types of air filters, air purification equipment, and biosafety protective supplies mainly used in electronics, medical, biosafety, and nuclear power fields.

Adhering to the modern business philosophy, the company has passed the certifications of ISO9001 quality management system, ISO14001 environmental management system, ISO 45001 occupational health system and nuclear power system.

In this industry, Afpro Eaf is a committee member of the National Cleanrooms Associated Controlled Environments Committee, membership unit of China Cleaning Industry Association, and drafting unit of air filters standard for National Standardization Committee. It took part in the drafting of many national standards.

亚太集团引入欧美技术和工艺，融合自身理念与策略，研制出优质产品，广受国内外欢迎，多数远销欧美。这一成就彰显其在空气过滤领域的进步，巩固了行业领先地位。

Yatai Group introduces advanced tech and craft from Europe and the US, integrates its own concepts and strategies, and develops high-quality products that are popular at home and abroad, and mostly exported to Europe and the US. This achievement showcases its progress in air filtration field and strengthens its leading position in the industry.

Wang Daqian, Secretary-general of Chinese Contamination Control Society, is visiting Shandong Chuangyuan Air Conditioning Equipment Co., Ltd.

山东创源空调设备有限公司是集中央空调系统、净化空调系统、空气过滤材料及配套产品、通风末端、消防排烟系统设备的产品研发、制造、销售、安装及维护于一体的现代化高科技企业，具有独立的法人资格，总部位于素有“九达天衢”“神京门户”之称的德州高铁新区，北依京津冀，南靠省会泉城济南，东临渤海经济圈，地理位置优越，交通便利。

创源公司总占地面积为 200000 平方米，注册资金 3000 万，公司员工人数 200 余人，其中技术服务团队人数占比 35% 以上，拥有一支高素质、高效率的营销团队。

我公司目前拥有现代化的全自动生产设备，已落成并投入使用车间厂房 40000 平方米，引进数控冲压、剪板设备二十余台套，建成中央空调、净化空调产品、空气过滤材料生产流水线三条，企业全面推行 6S 管理模式，全部产品的加工制作过程均实现可追溯性，从原材料的进料选材开始严格管控，制造全过程中严格执行国家标准，企业出厂检验标准远远高于国家标准，建立了完善的售后服务体系，多年来运行良好。

自成立以来依托诚信的经营理念、严谨的企业管理、优良的产品质量获得了广大用户及业界的认可，与此同时成功地吸引了德州亚太集团的资本注入，为企业持续健康发展提供了有力地保障，更加坚定了创源公司继续加大科技研发投入，独立自主的创造民族品牌的信心。

“有朋自远方来，不亦乐乎！”山东创源空调设备有限公司感谢各界朋友们的多年支持，欢迎新老朋友莅临参观、指导！

Shandong Chuangyuan Air-conditioning Equipment Co., Ltd. is a modern high-tech enterprise integrating research, development, manufacturing, sales, installation and maintenance of central air conditioning system, purification air conditioning system, air filtration materials and its supporting products, ventilation terminal and fire-fighting smoke exhaust system equipment. It has independent legal person qualification. The headquarters is located in Dezhou high-speed railway new area. It is surrounded by Beijing-Tianjin-Hebei Region in the north, “Spring City” Jinan in the south and Bohai Economic Circle in the east with superior geographical position and convenient transportation.

Chuangyuan Company covers an area of 200,000 square meters. Its registered capital is 30 million yuan. It has more than 200 employees, among which the technical service team accounts for more than 35%. The marketing team is well-qualified and highly-efficient.

Our company now has modern fully automatic production equipment. More than 40000 square meters’ workshops have been put into use. Yatai has introduced more than 20 sets of CNC punching machine and plate shearing machine, built the central air conditioning line, purification air conditioning products line, air filtration materials production line, and implemented 6S management mode. Manufacturing process of all products is traceable. National standards are strictly enforced from raw materials selection to the whole manufacturing process. Our leaving factory inspection standard is much higher than the national standard. A perfect after-sale service system was established, which has run smoothly over the years.

Since the foundation of the company, Chuangyuan relies on the honest management idea, strict enterprise management system and excellent product quality to win recognition of its users and the industry. At the same time, the successful capital attraction of Dezhou Yatai Group guaranteed Chuangyuan’s healthy development and strengthened its resolution to continue increasing investment in science and technology and its faith to independently create a national brand.

"It is such a delight to have friends coming from afar!" Shandong Chuangyuan Air Conditioning Equipment Co., Ltd. appreciates the support of friends from all walks of life. We will always welcome old and new friends to visit and guide our work.

聚焦现代产业，构建应用型学科专业体系。学校按照“固优、强特、扶需”的学科专业建设思路，对接山东省“十强”现代优势产业集群和德州市“541”现代产业，开设36个本科专业，形成了以工学为主体，工管艺文等多学科专业协调发展的学科专业格局。现有山东省一流本科专业建设点3个，山东省民办本科高校优势特色专业5个，山东省一流本科课程3门，山东省普通本科教育课程思政示范课程1门。获省级教学成果奖一等奖1项，二等奖4项，三等奖2项。

聚焦学生发展，人才培养质量不断提升。以能力培养为导向，构建了“平台+模块”的课程体系。从教学理念、教学内容、教学方法、课程思政等七个方面，深入推进课堂教学改革，实施了“大规模课堂教学改革工程”。学校课堂教学改革经验先后被《中国教育报》、光明网、齐鲁网等媒体报道。成立了创新创业学院，构建了“三层次三平台”创新创业教育体系，建设了大学生创新创业中心，中心为山东省创客之家。近三年，学生获得中国机器人及人工智能大赛全国总决赛一等奖等国家级奖励488项，“挑战杯”山东省大学生课外学术科技作品竞赛一等奖等省级奖励1355项。构建了“平台+项目”第二课堂育人体系，实施了“第二课堂建设工程”，实现了学生成长“七个起来”，促进学生德智体美劳全面发

展。近三年，毕业生总体就业率均在97%以上，本科毕业生专业对口率在82%以上。学校历届普通本科毕业生考研率均在10%左右，81人被“双一流”大学录取，10人被国外知名大学录取。

聚焦协同育人，推进开放办学。实施了“三接九化”应用型人才培养模式，全校所有学院和有毕业生的专业在此基础上都形成了各自的应用型人才培养模式。学校深入推进校企合作、产教融合，建设了产教融合园区，与德州亚太集团有限公司等企业合作建设了中央空调产业学院、现代物流产业学院、现代传媒与设计艺术产业学院、智能制造产业学院、新一代信息技术产业学院等6个产业学院，覆盖了所有二级学院。产业学院建设研究室、创新工作室、创业工作室和工作坊等“三室一坊”32个。现有校企合作单位153家。近三年，与企业联合开展技术开发、技术转让、技术服务等横向项目344项。

聚焦社会服务，积极开展应用技术研发。学校是中共德州市委政策研究室指定的智库联席单位、是省会经济圈科创联盟成员副理事长单位。学校现有山东省高等学校工程技术研发中心1个，山东省高等学校特色实验室2个，德州市重点实验室5个，德州市工程研究中心2个，德州市社会科学研究基地4个。近三年，获批国家社会科学基金等国家级和省部级项目10项，其中，国家社科基金高校思政课研究专项1项，教育部人文社会科学研究专项任务项目（高校辅导员研究）1项，山东省社会科学规划项目3项，山东省教育科学规划课题4项，中国高校产学研创新基金——德州专项资助课题1项。获市厅级科研奖励184项，其中德州市科技进步一等奖2项、二等奖3项，德州市社会科学优秀成果一等奖3项、二等奖9项。16篇咨政报告被德州市政府有关部门采纳，其中2篇咨政报告获市委田卫东书记肯定性批示。师生授权专利943项。

学校先后获山东省民办教育先进集体、山东省依法治校示范学校、山东省高校毕业生就业工作先进集体、山东省创新创业典型经验高校、山东省高校思想政治教育工作先进集体等荣誉称号。中央电视台《新闻联播》、光明日报、中国教育报等多家媒体报道学校办学成效。

学校以“建百年华宇、创特色名校”为愿景，坚守“为学生成长发展提供高质量的教育和服务，为地方经济社会发展提供适用的人才和技术”的使命，主动服务地方经济社会发展，坚持内涵发展、特色发展、创新发展，努力把学校建设成学生满意、教工自豪、政府重视、社会尊敬，特色鲜明的高水平应用型大学。

We focus on modern industries and build an application-oriented disciplinary system. In accordance with the discipline construction idea of "reinforcing excellence, strengthening special and supporting demand", the school is connected with "Top Ten" modern advantageous industrial clusters in Shandong Province and the "541" modern industries in Dezhou city. There are 36 undergraduate majors, with engineering as its main body, multi-disciplinary specialties such as engineering, management, art and literature develop harmoniously. Currently, there are three first-class undergraduate programs, five private undergraduate college advanced specialties, three first-class undergraduate courses and one undergraduate education ideological and political demo course all at Shandong provincial level. We have obtained one first prize, four second prizes and two third prizes for teaching achievement at the provincial level.

We focus on student development, and continuously improve the quality of talent training. Guided by ability training, the course system of "platform + module" was established. Classroom teaching reform has been further promoted from seven aspects, including teaching philosophy, teaching content, teaching methods, curriculum ideology and politics", and the "large-scale classroom teaching reform project" has been implemented. Classroom teaching reform experience has been reported by China Education Daily, Gmw.cn, lqilu.com and other media. The Innovation and Entrepreneurship college has been established, and a "three-level, three-platform" education system for innovation and entrepreneurship has been established. We have set up the college students innovation and entrepreneurship center--- --Shandong Maker's Home. In the past three years, our students have won 488 national awards such as the first prize of the National Finals of China Robot and Artificial Intelligence Competition, and 1355 provincial awards like the first prize of Shandong College Students Extracurricular Academic Science and Technology Works Competition "Challenge Cup". The "platform+project" second classroom education system has been established, and the "second classroom construction project" implemented, which has achieved the seven students' growth and promoted the all-round development of students' morality, intelligence, physical fitness, aesthetics and labor. In the past three years, the overall employment rate of graduates has been above 97%, and the major matching rate of undergraduate graduates has been above 82%. The postgraduate entrance examination passing rate of all undergraduate graduates is about 10%. 81 of them are admitted by "double first-class" universities, and 10 of them are admitted by foreign famous universities.

We focus on cooperated people education plan and promote open teaching. The "three connections and nine transformations" applied talent training mode has been implemented, and all colleges and majors with graduates have formed their own applied talent training mode on this basis. This university has further promoted school-enterprise cooperation and the integration of industry and education, built a park integrating industry and education, and cooperated with Dezhou Yatai Group Co., Ltd. and other enterprises to build six industrial schools, including central air conditioning industry school, modern logistics industry school, modern media and design art industry school, intelligent manufacturing industry school, and new

generation of information technology industry school, covering all secondary schools. There are 32 "three studios and one workshop" in the industrial schools, such as construction research office, innovation studio, entrepreneurship studio and workshop. At present there are 153 university-enterprise cooperation units. In the past three years, Huayu and enterprises have jointly carried out 344 horizontal projects including technology development, transfer and services.

We focus on social service and actively launch research and development of applied technology.

The university is a think tank joint unit designated by the Policy Research Office of Dezhou Municipal Committee of the CPC and a vice president unit of the provincial capital economic circle science and technology innovation alliance. The university has 1 engineering technology research and development center of colleges and universities and 2 characteristic laboratories of colleges and universities in Shandong Province. It also has 5 key labs, 2 engineering research centers and 4 social science research bases in Dezhou City. In recent three years, there are 10 approved national and provincial-level projects like the National Social Science Fund of China, among which there is 1 national social science fund college ideological and political course research project, 1 special task project of humanities and social science research of Ministry of Education (college counselor research), 3 social science planning projects of Shandong Province, 4 Shandong Province education science planning projects and 1 Chinese higher education industry-university-research innovation fund -- Dezhou special fund project. It has won 184 municipal scientific research awards, including 2 first prizes and 3 second prizes of Dezhou Science and Technology Advancement, 3 first prizes and 9 second prizes of Dezhou Social Science Excellent Achievements. Sixteen advisory reports have been adopted by relevant departments of Dezhou Municipal Government, among which two advisory reports are recognized by Tian Weidong, Secretary of the CPC Dezhou Municipal Party Committee. There are 943 patents applied by teachers and students.

The university has been awarded honorary titles such as Advanced Collective of Private Education in Shandong Province, Lawful Management Model School in Shandong Province, Advanced Collective of Employment of College Graduates in Shandong Province, Typical Experience University of Innovation and Entrepreneurship in Shandong Province, and College Advanced Collective of Ideological and Political Education in Shandong Province. CCTV News Broadcast, Guangming Daily, China Education Newspaper and other media reported its achievements.

With the vision of "building a splendid university for a hundred years and creating a famous school with characteristics", the university adheres to the mission of "providing high-quality education and services to the growth and development of students, and providing suitable talents and technologies to local economic and social development." It takes the initiative to serve the local economic and social development, adheres to the developments of connotation, characteristics and innovation, and strives to build the university into a high-level application-oriented university with distinctive characteristics that students are satisfied with, faculty are proud of, government values and society respects.

德州华晨驾校

DEZHOU HUACHEN DRIVING SCHOOL

华晨驾校坐落于德州市人文环境厚重的大学路东段，西邻岔河锦绣川风景区。先天的育人环境和美丽的自然风光和谐统一于此。自 2005 年 11 月获得省级综合类一级驾校资格以后，华晨就以“高起点、高水平、高质量”为办学宗旨，坚持“锻造精英教练，输送合格学员”的原则，以“轻松学车，快乐生活”为办学理念。华晨驾校优质的驾校管理，优秀的教练，齐全的设施，充足的课时，良好的信誉，赢得了广大市民学员的好评。

考试合格率连续稳居同行业前列、连续多年被评为全国驾培行业“AAA”级驾校、全国服务质量满意单位、中国百强品牌驾校、中国最佳服务品牌驾校、全国行业自律先进驾校、山东省消费者满意单位、全市驾培文明先进单位……

荣誉只代表过去，华晨驾校继续秉承“团结、奉献、求实、先行”的企业精神，继往开来，开拓创新。作为德州市最具实力的驾驶员培训学校，华晨驾校与时俱进，先后投资 2000 万元，从硬件到软件及时更新升级，学员免费接送班车 6 辆，理论教学微机 50 台，汽车模拟器 25 台。华晨驾校还建有配套设施齐全、国内一流的教学场地，可进行倒库、侧方停车、曲线行驶、直角拐弯、定点停车与坡道起步等全系科目训练，拥有全部培训资质的汽车驾驶员培训机构（A1、A2、A3、B1、B2、C1、C2、D 证）。

华晨驾校以其完备的教学设施、雄厚的师资力量、先进的服务理念成为德州市驾培行业的领跑者。

Huachen Driving School is located at the east section of University Road in Dezhou City with a heavy cultural environment, with Jinxiuchuan scenery park to its west. The innate nurturing environment and beautiful natural scenery are harmoniously unified here. Since it obtained the provincial-level comprehensive class one driving school qualification in November 2005, Huachen has been taking "high starting point, high level and high quality" as its school-running purpose, adhering to the principle of "forging elite coaches, cultivating qualified students", and adopted "learning driving easily and living a happy life" as the school philosophy. It is highly praised by the public due to its advanced management, excellent coach team, complete facilities, sufficient class hours and good reputation.

The test passing rate of Huachen Driving School has been in the front rank among its peers.
